

Caleb Fowler

New York, NY / 650-793-9975 / cfowler650@gmail.com / calebthedev.com

Bootcamp Graduate – App Academy. San Francisco, CA 4/19 – 7/19.

Graduated from immersive 16-week full stack in-person web development course. Received 1000+ hours education in Object-Oriented Programming and Test-Driven Development as well as advanced algorithms, REST API development, user authentication, Javascript closures, data structures and more. Built full stack applications using MERN and similar architectures. (MongoDB, Express, React, Node, Ruby on Rails, JavaScript, React, Redux, PostgreSQL).

Software Engineer – Element Critical. Sunnyvale, CA 5/18 – 4/19.

Architected a full stack web application to serve viable metrics from a data acquisition system. Implemented Flask and Python API to hook into Splunk SIEM to retrieve data and serve it to UI; The client side then manipulated that data further to provide valuable analytics for the finance department through an interactive site-map, empowering them with a fast and intuitive solution for billing customers. (Python, Flask, Javascript).

Security Officer – Facebook HQ. Menlo Park, CA 10/18 – 3/19.

Ensured high quality security service to protect people and property of Facebook headquarters. Responsible for access control, issuing badges, camera surveillance, performing building patrols, and leading evacuations. Effectively built and maintained relationships with employees and guests.
